RAHIL H. STATIC 匠

## The Last Human Designer | Poet of Spaces

Key Career Highlights

- **Nothing** - Independently designed & conceptualized a widget experience used by 100k+ users globally, exclusively for Nothing phones. Runner up in the brand's annual community edition project.

- **NextCampus** - Led 0 → 1 design for a complex B2B SaaS ERP product used by regional educational institutions. Maintained the DS over multiple versions.

- **Anata, 99support & more** (NC clients) - Worked with Japanese clients & collaborated with cross functional teams to deliver culturally nuanced software in the B2B2C & D2C domain. Was the sole designer for these projects.

- **Develearn** - Worked with regional colleges and redesigned their websites bringing them to a modern standard. Designed the company's internal management system.

- **NDA Projects** - Led design for a feature-rich fleet management system for a global Tier-1 automotive supplier with 250,000+ employees across 45 countries. Covered two different versions over the course of two years.

Founded

- **Rahil's Museum** - Digital repository for archiving and exhibiting my best work, telling stories and sharing knowledge, it also doubles down as a makeshift design studio presence. Building it pixel by pixel in my free time.

Something exciting/legacy oriented. Can be experimental or unorthodox too.
Or if you value authentic human-craft over machine generated output.
I believe design is one. Design discipline & ethos can be applied in any industry.
